

# Regional Development Team

## Fostering growth

The Oklahoma Department of Commerce is dedicated to providing the support and tools necessary for Oklahoma companies to grow and thrive in our state. The Regional Development Specialist (RDS) Team offers hands-on assistance as well as referrals to resource and program providers to help support businesses in every region of the state.

Supported by Commerce Leadership, the team is composed of RDSs, the Regional Team Director and the Programs Coordinator. As community and economic development professionals, Regional Team members are responsible for assisting businesses, communities and regions in the seven designated regions of the state: Northeast, Southeast, Northwest, Southwest, North Central, West Central and the Oklahoma City Metro.

### James Johnson

Regional Development Team Director
